Skills

Frontend Nuxt, React

Backend Java Springboot,
Django, FastAPI,
GraphQL

Databases MySQL, MongoDB,
PostgreSQL, Redis

Infrastructure Git, Gitlab, Google
Cloud, Azure,
Docker, Kubernetes

Languages

Dutch : Native
English : Very good
French : Good

Leisure

Fitness & running, pool,
(Game)development

As a career switcher, I combine strong communication skills and professional experience with a broad and modern Full Stack toolkit (including Nuxt, React, Django, Java Springboot, Docker, Kubernetes). I am highly driven and eager to learn, and I enjoy exploring new tech stacks to develop features as efficiently as possible, always with a client-first approach.

Education

Associate Degree in Programming – UCLL 2024 - 2026
Highest distinction

Internship

Full Stack developer – Teamworks, VS 2025 - 2026

- Developing and implementing full-stack features using Nuxt, Django, and GraphQL.
- Optimizing data performance using Airflow pipelines and Redis caching within Kubernetes clusters.

Work Experience

Volunteer – Digipunt, Holsbeek 2023 - 2025

- Guiding residents with limited digital skills, providing practical solutions and clear explanations to help them work more independently with technology.

Client Coordinator – Marsh, Brussels 2021 - 2025

- Delegating daily tasks to a team of contract administrators.
- Following up on commercially sensitive or complex files.
- Evaluating and improving work processes to promote efficiency.

Client Executive – Marsh, Brussels 2019 - 2021

- Maintaining relationships with the Renault Group garage network in Flanders.
- Monitoring and reporting on sales results.
- Negotiating with insurers and B2B clients regarding strategy, terms, and pricing.

Contract administrator – Marsh, Brussels 2018 - 2019

- Drafting, following up, and finalizing quotes in various insurance branches.

Salesperson – Bioplanet, Nossegem 2016 - 2018

- Managing all daily activities of a supermarket specializing in healthy organic food.
